Dear Phyllis and David,

In reply to your letter dated 1st November 1995, the matter was investigated by this Committee. Our investigations have not substantiated your claim that Matthew Roberts was being paid for coaching. Therefore, no further action can be taken by this Committee on that subject.

Your letter of 22 November, 1995 does cause considerable concern as it reflects a disregard for this Committee's actions in a very argumentative manner. The attitudes reflected by your statements are not conducive to maintaining an amicable relationship between this Association and the CCTA. This is a major concern and one which we should address in order to avoid any further damage to that relationship. This is also a matter which we should discuss at the annual review meeting.

Sincerely,

Mavis Slingsby  
Secretary.
