

Complex

Gosford Tennis Centre and GDTA
POINTS FOR DISCUSSION 07 APRIL 2004

Carried forward from previous meetings:

1. Very important point as discussed with Hal M regarding the "Council Lease"
 - a. Details have been given to Maureen R for urgent clarification
2. Chairs and Tables Blue Room
 - a. Discussions regarding this topic started I think about September / October 2003.

(Lynnie)
TABLES &
CHAIRS

Brief copy - CHAIRS:

- Blue chairs that have been in the "Blue / Vaughan Room" since forever are about to cause a dangerous **INSURANCE** situation
- They have been rusting and breaking
- Fortunately for GDTA members, they now do NOT take them outside - they use our white plastic chairs
- Unfortunately our white plastic chairs are now too being broken and require replacement
- They are used all round the complex - especially on Wednesday and Saturday competition days

- TABLES:

- Tables in the Vaughan Room / Blue Room are now beyond repair and require replacement

Consultation with Jenny and Rod about the type and standard of table and chair would be appreciated.

3. Brief copy

- **WOODEN PICNIC BENCHES**
- Recently a "court case" was fought and LOST over the "tipping" of one of these bench seats.
- There are a further 5 of these bench seats that require to be made stable by putting the same "extra" piece of wooden support on the base.
- We have had at least one additional case where an unsecured bench has again tipped - fortunately with no bad consequences

4. GDTA Championships

- **Junior BADGE**
- Fortunately Maureen R has had discussions with Rod regarding these and dates have been suggested

21/8
28/8

Senior / Open

- Could an Executive meeting please be held SOON to discuss these? Last year they were left until very late

(May)

5. Court Repairs

- a. Court 13 has now been completed and is being used. The surface originally had a small problem that they left a lot of excess sand on it but with continued sweeping and brushing we have been able to sweep it in and it will soon require a "top up with new sand"

- b. Courts 8 and 9 As I understand it a quote was being prepared *Now* for the "re-surface" of these courts. They are now in URGENT need of this action.
- c. Courts 3 and 4 Are in need of a "water blast / clean" Please *Doing* advise if you want us to do it or outsiders

~~OUT~~ MAJOR COURTS

- 6. Grass Court maintenance
 - a. As you are aware Rod has been sweeping the courts with a "heavy drag sweeper". This has proven very good – however Rod is not as "young nor agile" as he thinks he is and after talking with Warren from the court construction company he suggested that the best and cheapest way out is to buy a "cheap and nasty" old ride on mower – he said they usually go for about \$800 second hand, subject to the motor working – he said that it is relatively easy to remove the cutting blades and use it as a pulling device – it fits through the normal size gates and the job of sweeping ALL SYN GRASS courts can be done more regularly.
 - b. If GDTA are prepared to contribute half of the fee I.e. \$400 I will contribute the other \$400 and I will maintain the machine.
 - c. This will allow the courts to be swept on a more regular basis

7. Tennis Balls - Gosford Open Classic

- a. In the garage is the remaining GDTA supply of Penn Tennis Balls that were originally purchased for the Gosford Open Classic – 7 boxes of 6 doz equals 42 dozen untouched. Originally received 8 boxes and 1 box used for the "B" Mens event – they had problems with damaged T Balls as mentioned in Tourny Report
- b. GDTA received on 08/12/03 -
 - i. 48 doz x 4 ball = 12 boxes hardcourt
 - ii. 32 doz x 4 ball = 8 boxes grasscourt
- c. Gos Junior used – as attached guidelines - used approx 906 balls
- d. Hence in Credit approx 5 dozen Slazenger T Balls
- e. However as the Gosford OPEN Classic was played in-conjunction with the Mens Satellite and they used Slazenger it was agreed with Stephen Gibson that rather than cause a drop in entries and a problem that the same T Ball would be used as the Satellite. However GDTA did not have sufficient as they were anticipating using Penn, Rod used some of his stock as follows:
 - i. Total used 32 dozen
 - ii. Credit GDTA 05 dozen
 - 1. To repay 27 dozen
- f. **These figures show that Gosford Tennis Centre has advanced GDTA 27 dozen Slazenger Tennis Balls, however 4 dozen are still outstanding from previous time when GDTA again borrowed Slazenger Tennis Balls for GDTA Championships**
- g. **Hence total of 32 dozen Slazenger Tennis Balls are required to square the ledger. Either Grass or Hardcourt balls will be suitable**
